These twelve lectures of Dr. Henry C. Kinley were taped and transcribed in December 1958 and the early part of 1959 at 1347 North Cahuenga Blvd., Hollywood, California.

Jerrold Merton, a scenario writer introduced to us by Saul Gould, was going to help Dr. Kinley get some pamphlets written, using these transcripts. Dr. Kinley talked to and explained the charts to several scenario writers when he first came to California, but they all said the job was too much for them.

Mr. Merton would tape part or all of Dr. Kinley's lectures, have me transcribe them, then he would try and write on a certain subject. Mr. Merton was with us at our first public meeting, December 9, 1958 on Cahuenga Blvd. in Hollywood.

In transcribing the tapes, no attempt was made to correct any grammar, spelling, punctuation, etc., because Mr. Merton would correct all of this when he re-wrote it.

After hearing the lectures for sometime, he decided he could not write what Dr. Kinley was teaching; he said it was too big a job for him. He said what he learned from it all was God (Yahweh) is all in all, and that's all, and he didn't know how to break this down.

Mr. Merton did write the first pamphlet printed in California, the little gray one, entitled, "An Introduction to Divine Metaphysical Philosophy and The Divine Pattern of the Universe."
